

Junior Tennis Program

The tennis program at VNCC is a progressive, developmentally based program that introduces tennis in a fun, energetic way that ensures your child's immediate success. We use modified balls, racquets, nets and courts that correspond to their size. This promotes the development of sound fundamental skills that will make the transition to a full court easier. The progressive program will be experienced by those youth 4-10 years of age. Sometimes the modified balls get used for adults too!

(think better work out!)

Fill out this form with payment and give to front desk of clubhouse. Or
